Dr George Setlock, Manager  
Environmental Analysis and Control  
Rockwell International  
Rocky Flats Plant  
Post Office Box 464  
Golden, Colorado 80401

Dear Dr Setlock

The Radiation Control Division, Colorado Department of Health is requesting that the Division be notified of any planned offsite releases from the A, B, or C series Ponds on the Rocky Flats Plant. CDH will then sample the last pond on the drainage and will complete the analyses for alpha, beta and tritium on the sample prior to the plant starting the release. CDH estimates that a sample will require no more than thirty-six hours (during a regular work week) for analysis and notification to the plant.

Your immediate attention to this request will be greatly appreciated

Sincerely,

Albert J Hazle, Director  
Radiation Control Division

AJH/MLH/kp
